Experience

Morgan Stanley May 2022 – Present
Director, Software Engineering III *Bangalore, India*

- Senior backend engineer on **GTRS**, a high-scale distributed system for real-time global transaction reporting; design new microservices and reusable libraries with Spring Boot and event-driven architecture.
- Led the replatforming of GTRS inter-service communication from **IBM MQ to Apache Kafka**, improving throughput and resilience across the microservices architecture.
- Built an **AI coding agent using Claude and Codex** to automate the MQ to Kafka migration; work that took **6 months and 168 PRs** for the first mandate was completed in **1 week in a single PR**.
- Delivered **ASIC, MAS, JFSA, CSA3 and HKMA2** regulatory mandates for OTC products, keeping reporting compliant with evolving regulatory requirements.
- Driving component standardization across mandates by upgrading existing components for reuse or designing new ones on a common architecture.
- Built a **dry-reflow** component that automatically corrects open trade positions when external REST results change or existing reporting logic is fixed.

NatWest Group Aug 2021 – May 2022
Software Engineer *Gurugram, India*

- Developed features for the bank's **Anti-Bribery & Corruption** portals (Financial Crime Hub) using Java, Spring Boot, Spring Data, Oracle SQL and AngularJS.
- Integrated **SonarQube** into the project and raised code coverage to **85%**.
- Upgraded all project libraries to the latest firm-approved versions, meeting firm-wide security and operational standards.

Infosys Ltd Jan 2019 – Jul 2021
Senior Systems Engineer *Pune, India*

- Built the backend of the **ESDS Payload Generator** with Spring Boot and Spring Data JPA, cutting payload-generation time for downstream ESDS services by **75%+**.
- Developed and maintained RESTful web services with Spring REST, Spring Data REST and Spring Data JPA.

Systems Engineer Trainee *Jun 2018 – Dec 2018* *Mysore, India*

- Completed 5-month training scoring **89/100**; built a full-stack shopping cart app with Spring Boot, Spring Security, Spring Data JPA and Angular.

Bharti Airtel Limited Jun 2017 – Jul 2017
Software Engineer Intern – configured the Oracle Fusion Benefits module in a live environment *Gurugram, India*

Education

University Institute of Engineering and Technology, Kurukshetra University 2014 – 2018
Bachelor of Technology in Computer Science and Engineering; CGPA: 7.82/10 *Kurukshetra, India*

St. Michael's Sr. Sec. School (CBSE) – Class XII: 90%, Class X: 8.8/10 *2011 – 2014*

Technical Skills

Tech Stack: Java, SQL, Spring Boot, Spring Framework, REST APIs
Architecture: Microservices, Distributed Systems, Event-Driven Architecture, Message-Driven Processing, Concurrency & Multithreading
Cloud & Data: AWS, Snowflake, PostgreSQL, DB2, Apache Kafka, IBM MQ
Tools: Gradle, Maven, Git, SonarQube, Splunk, Claude, Codex

Achievements

- **AWS Certified Developer – Associate** (DVA-C02), 2025 – Credly
- **Promoted twice** in three years at Morgan Stanley (2023–25)
- **Google Code Jam 2020** – advanced to Round 1B (rank 6,539)
- **HackerRank** 6-star Problem Solving (Advanced), 2018
- **Infosys Insta Award**, 2020 – awarded to the best performer in the team each quarter
